Access for all Smart green, not extreme green

The Outdoor Recreation Party believes public land should be accessible for recreation and actively managed, not locked up and neglected. It supports access by aircraft, boat, vehicle, bicycle, horse and on foot.

It views current restrictions as symptomatic of a larger problem of excessive regulation, bureaucracy and government intrusion. It supports efforts to reduce the size of government through less regulation, greater personal choice and lower taxes.

If elected, the ORP will support:
